European Solidarity Corps

What is the European Solidarity Corps?
The European Solidarity Corps is a new EU initiative which creates opportunities for young people to volunteer in projects in their own country or abroad that benefit communities across Europe. The young people who participate in the European Solidarity Corps will all share the same values and principles.

You can register for the European Solidarity Corps when you are 17 years old, but you cannot start a project until you are 18. European Solidarity Corps projects are available to people up to the age of 30 years old.

After completing a basic regulatory process, European Solidarity Corps participants will be selected and invited to join a wide range of projects, such as helping to prevent natural disasters or reducing social exclusion, especially in rural areas or addressing cultural or social issues in communities.

Projects supported by the European Solidarity Corps can last from two to twelve months. They will usually be located within the European Union member States.
